

TEAM OCEANIA

International Cybersecurity Challenge

18-21 May 2026 | Gold Coast, Australia

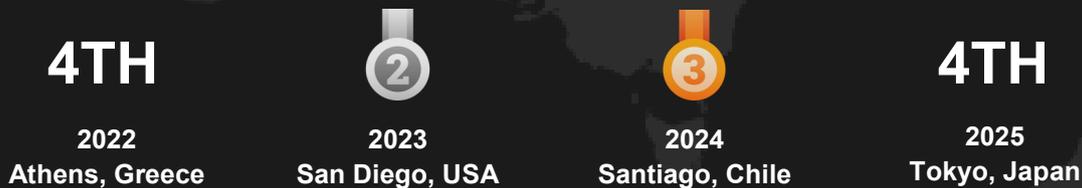

SPONSORSHIP PROSPECTUS

About The Team

Team Oceania is a team of 17 cybersecurity students and professionals from across Australia and New Zealand. The team represents the Oceania region on the global stage by competing in cyber competitions at the highest level, with the main event being the International Cybersecurity Challenge (ICC). Team Oceania was established in 2022 and participants are selected annually to maintain the highest degree of talent and diversity. Team Oceania is seeking financial support to compete in the 2026 ICC event in the Gold Coast this May.

The International Cybersecurity Challenge is the first global Capture the Flag event designed to grow and test cybersecurity talent on the international stage. The challenge was initially created by the European Union Agency for Cybersecurity (ENISA) and is organised annually by the ICC Steering Committee, comprising of representatives from each competing region. The challenge tests players' skills across areas of cybersecurity including cryptography, web exploitation, binary exploitation, reverse engineering, digital forensics, AI, intrusion detection, networking, cloud, and automation.

Team Oceania has an excellent track record, particularly for the size of the region, including two podium finishes of 2nd and 3rd place in 2023 and 2024 respectively. The fifth ICC event will see teams from Oceania, USA, Europe, Asia, Latin America, Africa, ASEAN, and Canada compete in the Gold Coast in May 2026.

Industry Support

Team Oceania and its success is hugely dependent on support from the cyber industry. The nature of the event presents a unique opportunity for organisations to both support the growth of the cybersecurity industry, and gain excellent international brand exposure through sponsorship of the team. Your sponsorship directly supports the development of the future of national security and the cybersecurity workforce, and establishes connections for talent acquisition and continued partnership. Team Oceania is sending a delegation of 19 people (17 participants and two staff) to the Gold Coast to compete in ICC 2026 at an estimated cost of \$30,000 AUD including return airfares, accommodation, and equipment. In addition to the below sponsorship tiers, the team are also interested in hearing from sponsors seeking to sponsor individuals (at a silver equivalent) or those seeking different sponsorship benefits targeted at your organisation.

Sponsorship Tiers

Benefit	Silver (\$2,000)	Gold (\$5,000)	Platinum (\$10,000)	Diamond (\$20,000)
